Do you later want to remote access the computer you are installing TeamViewer on at the moment?
No (default)
Outgoing and incoming connection from and to this computer are possible. For incoming connections you need to start TeamViewer and tell your partner the random password (it changes with every start of TeamViewer).
Yes
After installation a wizard will help you to setup TeamViewer that you can access it anytime from anywhere. You'll set a predefined password and this computer will be available with TeamViewer even before windows logon.
Note: You can change this setting later at any time.
